Your Honor, I would <sup>also</sup> like to address the courtroom with a constant problem I and many other inmates housed at Madison County Detention Center encounter everyday. I once addressed this issue with my lawyer & her investigator but the problem is still ongoing so I find the need to bring it to the courts attention. \* Your Honor, as you & the court already know, I was once housed at Yazoo City Federal Facility institution and ~~there~~ <sup>that</sup> is where I was found to have been in possession of 4 metal ~~st~~ rods known as shanks. ~~I was disciplined within the institution and now within the court of law.~~ In many ways this is considered double jeopardy. I never used them and with the blessing of God I planned on never having too. I kept them after the race riot between Blacks & the Mexicans <sup>which erupted</sup> ~~over~~ a TV during clean-up after lockdown <sup>I found them and</sup> ~~kept them~~ for my safety and later they were found in my room. Am asking 'low Judge Bromlet and the court to take into consideration my incarceration and age and the 1 1/2 yr 3 month ~~bit~~ sentence am currently serving and go below the ~~guideline~~ sentencing guideline and give me something ~~also~~ reasonable considering the guidelines has been ruled as an advisory leaving it up to the judge to determine a ~~the~~ suitable sentence for the crime committed. Your Honor am not due to return back into society until early 2016 and am asking you to have mercy and not extend that to 2018 and that's giving me the low end of the ~~the~~ guideline that will raise that. I accept full responsibility and I promised under oath to never make ~~the~~ this wrong choice again and come back into a federal court. \* Since I've been housed at Madison Co. Detention center I have witnessed several inmates being assaulted for as little as standing in there door window watching while other inmates

get assaulted. I have been assaulted on 3 different occasions and refused medical attention because of the bruises until it healed. When I inform them that am federal, ~~that~~ that only triggers there anger even more which results in assaults. I even had ~~officers~~<sup>officers</sup> to say things like "Madison County is untouchable, even the US Marshalls cant get to them" I've witnessed a inmate get poppe sprayed simply because he didnt say "yes sir" if ~~for~~ all these things was being done by an inmate without just cause as they are by officers at Madison Co. we would be charged & prosecuted. Someone must step in <sup>and</sup> conduct a serious investigation to stop some of these unwareented and harsh acts before someone is seriously seriously injured or killed.
